Task Instructions		<p>This voluntary survey is part of a research study to gain a better public health understanding of the coronavirus pandemic and its effects on public health and well-being. Your participation will greatly aid our research. You may stop taking the survey at any time.</p> <p>In order to ensure that the researchers cannot identify you and to keep your responses confidential, the survey does not ask for your name or any other personal data from you. The researchers will not receive any information that can identify you from Premise Data.</p> <p>The de-identified results of this survey may be used for our future studies or shared with other investigators for their research studies. Published results will be aggregated and will not identify you individually or your responses.</p>	Agree and continue
